INTERNSHIPS

The AGIR laboratory welcomes students for **introductory research internships, at DUT, L3, M1 or M2 level**. The multidisciplinary approach proposed by our team allows us to offer diversified internships in the field of infectious disease research. The internship periods extend from January to July (minimum duration: 1 month). **The application deadlines are 30/10 for M2 internships and 30/04 for M1 internships.**

For any internship request, please send us the form accessible for download duly completed and the associated additional documents. For M2 internships, please contact the laboratory director beforehand.
